

Slickline Triggers & Perforators

Our **Slickline Triggers** enable Slickline Operators to Perforate, Set Plugs, Dump/Bail, Cut Tubing and Other Operations that use Standard 51 Ohm Detonators, Igniters as well as a variety of RF Safe Detonators.

Our **Slickline Triggers** are centered around Safety and Simple Operating Procedures.

SAFETIES / Controls / Benefits

- ◆ Up to Four (4) Primary Safeties to **Safely** Initiate downhole operations
- ◆ Some Triggers record Pressure & Temperature before, during and after the perforation sequence with its Fast and Slow Sampling Modes
- ◆ Running Gear to protect the tools from shock
- ◆ Audible signal to indicate tool operation and status
- ◆ Detonates most standard Resistorized Detonators and Igniters
- ◆ Can Trigger some Hydrostatic Setting Tools

Operating Temperature	32°F to 302°F (0°C to 150°C) Standard 350°F (177°C) Extended
Outside Diameter	1.38 in. (3.5 cm) Nominal
Maximum Pressure	15,000 psi (103,000 kPa) Standard 20,000 psi (137,895 kPa) Extended
