

# Electric Line Carrier (ELC-215)

The **ELC-215** is an Electric Line Carrier that houses two (2) .75" Memory Pressure Gauges. This carrier includes a Wire-Thru to allow your electric line tools to be utilized while capturing key Pressure and Temperature data and storing on memory. This 1.5" carrier can be utilized for your Electric Line test

Material	Inconel 718
Overall Length	51.9" (1.32 m)
Make-Up Length	47.4" (1.2 m)
Outside Diameter	1.5 in. (3.8 cm)
Inside Diameter	None
Threads	1-3/16" G-O Wire Thru (pin x box)
Tensile Strength	77,000 lbs
